About THK Early Intervention for Children (EIC) Services

THK EIC Services provides early intervention services to children under the age of seven. We have six early intervention centres around Singapore, and we also provide support within preschools to K1 and K2 children with mild developmental and learning needs through the Development Support and Learning Support (DS-LS) Programme.

Our Philosophy

A child is a child first, then a child with developmental needs

Our Goals

Our Vision:

An inclusive and nurturing community that embraces different abilities, with equal opportunities and access for everyone

Our Mission:

*To Enable our Children,
Empower their Families
and Inspire our Staff & Community*

We enable our children to reach their full potential, and prepare them for the real world with our focus on functional outcomes.

"S has made a lot of progress from where she was a year ago. She is more confident in being independent and attempts at doing daily activities even if done wrongly which was something I'm proud of. She also makes attempts at conversation time to time. I can really see the expertise and effort from the teachers in fruition, who go the extra mile in their work, a value much needed in teaching today." - Parent of S

*"Early Intervention is about understanding the child for who he is – his strengths and areas he needs to grow in – and finding the right approach to ensure that his needs are met. As we learn about the child, we get better at being able to help him learn and grow. Once the child develops in his skills, we can then work with him to generalise the skills in more than one routine, and subsequently, with his parents to help the child to generalise the skills at home. Early Intervention is an art and a science. I love it!"
- Early Intervention teacher*

Our Team

Our passionate, innovative, and professional trans-disciplinary team consists of:

- *Teachers and Teacher Aides*
- *PE Teachers*
- *Therapists (Occupational Therapists, Speech Language Therapists, Physiotherapists, Art Therapists, Music Therapists)*
- *Psychologists*
- *Social Workers*
- *The child's family*

Hear from our Teachers!

Our Approach

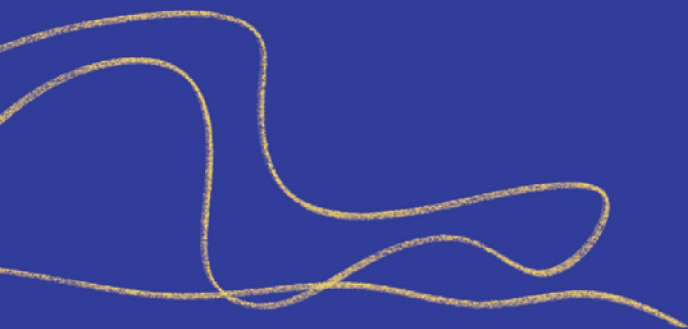

We create holistic and nurturing environments with plenty of natural learning opportunities to meaningfully engage children through everyday routines and activities. It is our strong belief that when children are engaged and having fun, learning naturally takes place!

Families are an integral part of our Early Intervention team, and we work closely with them through home-based strategies, customised workshops and the provision of other support services.

We are committed to working closely with the preschools, schools and the larger community to foster inclusive practices.

We achieve children's functional goals through:

- *Naturalistic intervention*
- *Child-centric approaches*
- *Family-centric practices*
- *Collaborative teaming*
- *Transition support*
- ...and other specialised approaches based on the child's developmental needs, e.g. (TEACCH, PECS)
